CREATING MAGIC MOMENTS FOR KIDS

The preprimary wing of the school consists of Play Group, LKG and UKG, which caters to the needs and demands of early childhood. Bearing in mind that the foundation of a child's personality is laid and two third of the intellect formed at this age, we have created an environment and system of teaching which is child friendly and includes recognition, reading, writing, conversation, phonetics (science of sounds) exploring picture, books, singing, story narration, recitation, basic arithmetical concepts, word formation and various activities for the young learners.

Lower KG

The teachers engage the students in conversation, help them to participate in rhymes, games and retelling of stories. They are introduced to the English alphabet, explore picture books and write the letters and elementary words. Reading and writing is a daily activity along with singing and recitation.

Upper KG

The teachers train the students in asking questions and participate in discussions, thus we expand their vocabulary. The students listen to and retell stories and write simple sentences. A second language may be introduced at this stage.
